

About the NSW EV Fast Charging Site Host EOI

* indicates a required field

The NSW Government is leading the way in the race towards net zero emissions. The [Net Zero Plan Stage 1: 2020-2030](#) sets out the state's ambitious agenda.

The shift to electric vehicles (EV) will play an important part in reducing emissions.

Through [The NSW Electric Vehicle Strategy](#) (the strategy), the NSW Government is looking to accelerate the fleet of the future, targeting key areas to make the state the easiest place to buy and drive an EV in Australia, with the aim to increase EV sales to 52% of all new car sales by 2030-31.

The strategy prioritises widespread EV charging across NSW, with a \$149 million investment to develop a world-class fast charging network.

This investment will build on existing public fast charging across the state over the next four years. The NSW Government has also developed a [NSW EV Charging Master Plan Map](#), which identifies optimal zones for funding over the next four years.

We are looking for sites throughout NSW which may be suitable to host public EV fast charging.

Glossary of key terms

- **EOI:** expression of interest
- **EV:** electric vehicle
- **Funding applicant:** EV charge point operator(s) applying for NSW Government funding to build an EV charging station(s) on a site nominated by a site host
- **Site host:** A location in NSW that hosts an EV fast charging station
- **The department:** Department of Climate Change, Energy, the Environment and Water

Essential reading for applicants

The NSW Government is encouraging businesses, commercial property owners/managers, local governments and site operators/owners across the state to submit an EOI to host an EV charging station. All locations proposed must have a minimum of four available parking spaces available for charging hardware to be installed nearby.

Before completing this EOI for your site(s), please read the [Drive Electric NSW EV Fast Charging Site Host Prospectus](#).

This prospectus outlines:

- why NSW needs public EV fast charging hosts
- benefits of becoming an EV fast charging host
